Brian King  
Angel Water Conditioning, Inc.  
214 S. Hager Ave  
Barrington, IL 60010

Dear Brian,

Thank you so much for all of the wonderful and kind things you have been doing for us. We really enjoy when members of the community show an interest in our cause. We are also incredibly grateful that you have been working so hard to make it possible for us to have clean water at our emergency shelter. The water situation has been a thorn in our agency's side for years. It has been the main reason we were holding us back from attempting any improvements to that facility.

Our board, our staff and especially our clients are so delighted to have this problem fixed. I asked one of the girls at the shelter how she felt about getting the new system and she stated "I think it is so nice when people help us, people who don't even know us. And I am so glad our water won't stink anymore!"

We will continue to share your involvement on our website and newsletters to inform our supporters and donors about your generosity. Like we mentioned before, we will showcase your project at our upcoming benefit, and if you are interested in coming, please contact me about purchasing tickets.

Have a wonderful day, and thanks again for all your help.

Sincerely,

Molly Jacobsen  
Office Manager

*Thank you for everything, including the minor maintenance to our bathrooms. You are the best!*
